Letter from Patrick Kwasi Gyinde

CEO

When I reflect about Beyond A Generation Foundation, I see it as a place of love - where vulnerable children are given hope to live, people build connections and impact communities.

We are relationship architects. We build strong relationships between our donors and communities.

Together with our volunteers, and staff members; these relationships makes purposeful impacts in the communities.

As you read this Annual Newsletter, know that we appreciate you. Thank you so much for all you do to help us meet the needs of poor, orphaned and vulnerable persons in our communities.

We have accomplish a great deal this year as you will see. In this newsletter, we share highlights of the year and stories of our programs. We also introduce to you our bold goal and invite you to stay on board to help us achieve it.

If you're not yet a Beyond A Generation Foundation partner and want to know more about becoming one, kindly visit www.beyondgeneration.org to learn more. If you'd like to help with financial donation or materials, thank you for that.

You can make a donation at beyondgeneration.org and know ways you can help.

We consider the price of love and what it can purchase. It can purchase a child's bright future, their happiness and every dollar spent on our youth is worth it.

We do our work each day prouder and with contentment because of our relationships with people like you.

With gratitude

Patrick Kwasi Gyinde

Beyond A Generation Foundation is a registered non-profit organization working to provide quality education to poor, orphaned and underprivileged children in Bamboi in the Bole District of the Savannah Region—Ghana. Our mission is to reduce poverty and its adherent problems in the North Mo Traditional Area through impact-driven programs. Every year, we reach hundreds of children and community members in rural areas with our range of interventions.

Our programs include providing in-school children with learning materials, providing apprenticeship/ vocational skills training tools and financial support to the youth, providing mobility aids to persons with disabilities; Healthy Earth Initiatives through Climate Education and Community Tree Planting Projects among others. The Foundation seeks to make impacts in the lives of the vulnerable, poor, orphaned and at-risk children to enable them live purposeful lives that will last for generations.

HEALTHY EARTH INITIATIVES

Throughout Africa, human induced environmental degradation ranging from air pollution, indiscriminate waste disposal, deforestation is replete leading to extreme climate events from severe droughts, heat waves, floods, loss of wildlife and destruction of habitats.

These crisis threaten water, food availability and livelihoods of people, species and systems all across Africa. It was for these reasons that the Foundation launched Earth Day 2021 with the team “RESTORE THE EARTH” - Together, we have the power to restore the Earth. Education programs were held to cover topics as RESTORATION EFFORTS, CLIMATE AND ENVIRONMENTAL LITERACY, CLEANUPS AND TREE PLANTING INITIATIVES.

The Education programs brought together Tribal/ Community Leaders, Religious/ faith based organization leaders, School Administrators, community members and students alike together to take action in pushing toward a better world.

On April 22nd, The Great Global Cleanup was carried out in the Bamboi Community with community leaders, school administrators, students and staff (the Bamboi DA Junior High and R/C Junior High Schools) and volunteers from across the Bamboi Community.

AFTER EARTHDAY 2021 CLEANUP CAMPAIGN

The Bamboi Community Tree Planting Initiative - Shade and Fruit Trees (Canopy) Project Impacts.

The Bamboi Community Tree Planting Initiative was launched during the closing ceremony of Earth Day 2021 celebrations.

2021 was an important year for Beyond A Generation Foundation. With the support of our donors, partners, volunteers and other stakeholders, we were able to achieve significant success. Key highlights of the year include.

- ◆ Earth Day has become a large movement of its kind in Bamboi, impacting 300 school children. In 2021, the movement reached 20 Tribal leaders, 300 students from 2 Primary Schools, 2 Junior High Schools and 2 Senior High Schools including 20 government school teachers and 30 volunteers from two communities were mobilized and trained in sanitation and afforestation techniques.
- ◆ Full partnerships were formed with the Ghana Forestry Commission (Bole District and Kintampo North Municipal Assemblies) for implementing the Bamboi Community Tree Initiative. Strong community level partnerships were established with Circuit Education Unit, The Ahmadiyya Moslem Missions - Bamboi, Tribal leaders and community members with capacity to expand our reach.
- ◆ A tree nursery has been set up where seedlings of mahogany, royal palm, gmelina, coconut, mango and acacia are being raised.
- ◆ 100 seedlings of coconut, 100 seedlings of royal palm and 100 seedlings of acacia were planted and are watered during the harmattan. Significant progress has been made through the Bamboi Community Tree Planting Initiative.

The Climate Education and Tree Planting Initiative lead to a ban on charcoal production and seizure by the North Traditional Council Authorities.

Wheelchair Missions - Free Mobility Aids

The transformative gift of mobility aid to a person living with disability does not only make them mobile, it gives them hope - hope that someone cares, hope to be productive and live a life of dignity. 76 million people are in need of a wheelchair but cannot afford one.

With data collated of persons with disabilities (including school children) across 215 villages/ towns in the Savannah, Bono and Bono East Regions of Ghana. 422 persons are waiting in line for the gift of a wheelchair, 100 persons need a pair of crutches, 243 need the gift of white canes and 110 persons need the gift of a walking stick.

Your donation will give renewed hope, freedom and dignity through a mobility aid.

FUTURE STEPS

A MESSAGE FROM THE BOARD CHAIR

— Emmanuel Donkor —

This year (2022) is yet another opportunity to make purposeful impacts, the Foundation wishes to provide yet another lifelong gift of change and prosperity to the many poor, orphaned, and at-risk children through the provision of school uniforms, bags, books, lunch, and an after school program. Education is one of the best gifts we can give to make purposeful impacts that would last beyond generations.

“GIVE FOR CHANGE” INITIATIVE

Our goal is to reach out to poor, orphaned and at-risk children and alleviate their condition. Bring them into the education net, sustain them in schools and improve their levels of learning. We also aim to prevent children from being exposed to vulnerable and abusive conditions as child labour.

A monthly donation of \$40 would help provide school books, bags, uniforms, and lunch for one child to help them stay in school and enable them achieve their God-given potentials. There many at-risk, poor, orphaned, and/ or needy children to help stay in school in the Savannah Region and without your gift of love, your 'gift for change. These children will stay at home, be used as helping hands on farms and prevent them from being their very best.

WORKING WITH UNEMPLOYED AND UNDEREMPLOYED YOUTH

Our 'Working with unemployed and underemployed youth' program aim at training unemployed and underemployed youth with employable skill sets. This involves providing vocational skills/ apprenticeship training and tools to the many youth in our area of work. This project is aimed at having no 'idle hands' in our program areas of the North Mo Traditional Area - Bamboi in the Savannah Region of Ghana. This would help reduce teenage pregnancies, crime rate and provide livelihood support and income generating skills to reduce the cycle of poverty among the indigenous people. Your monthly donation of \$40 will provide training materials, support and empower a beautiful soul.

We appreciate every donation whether in cash, in school materials, electronic gadgets (laptops, desktops, etc), and apprenticeship tools to help make purposeful impacts for the benefit of these children, their families, and generations. We are able to take on challenges and bring smiles to individuals, families and communities because of your generous donations and support. We are so thankful.

I am therefore appealing to you to take a bold step, a step of sacrifice, one of love in lending a helping hand toward our 'Give for Change' Initiative. Become a donor today, and make purposeful impact that would last generations. Visit us at www.beyondageneration.org to make an impact donation.

May the Almighty God extend his providence upon you as you help change lives across the world in Bamboi – Ghana. Shalom!!
